## Product Summary

| BV | RSS |  |
| :---: | :---: | :---: |
| $-60 \mathrm{~V}$ | $350 \mathrm{~m} \Omega @ \mathrm{~V}_{\mathrm{GS}}=-10 \mathrm{~V}$ | $\mathbf{I}_{\mathbf{D}} \mathbf{M a x}$ <br> $\mathbf{T}_{\mathbf{A}}=+\mathbf{2 5}{ }^{\circ} \mathbf{C}$ |
|  | $550 \mathrm{~m} \Omega @ \mathrm{~V}_{\mathrm{GS}}=-4.5 \mathrm{~V}$ | -1.5 A |

## Description and Applications

This MOSFET is designed to minimize the on-state resistance ( $\mathrm{R}_{\mathrm{DS}(\mathrm{ON})}$ ) and yet maintain superior switching performance, making it ideal for high-efficiency power management applications.

## Features and Benefits

- Low On-Resistance
- Low Input Capacitance
- Fast Switching Speed
- Low Input/Output Leakage
- Totally Lead-Free \& Fully RoHS Compliant (Notes 1 \& 2)
- Halogen and Antimony Free. "Green" Device (Note 3)
- Qualified to AEC-Q101 Standards for High Reliability

## Mechanical Data

- Case: SOT23
- Case Material: Molded Plastic, "Green" Molding Compound UL Flammability Classification Rating 94V-0
- Moisture Sensitivity: Level 1 per J-STD-020
- Terminals: Finish - Matte Tin Annealed over Copper Leadframe. Solderable per MIL-STD-202, Method 208 e3)
- Terminals Connections: See Diagram Below
- Weight: 0.009 grams (Approximate)
- Battery Charging
- Power Management Functions
- DC-DC Converters
- Portable Power Adaptors

## Ordering Information (Note 4)

| Part Number | Case | Packaging |
| :---: | :---: | :---: |
| DMP6350S-7 | SOT23 | $3,000 /$ Tape \& Reel |
| DMP6350S-13 | SOT23 | $10,000 /$ Tape \& Reel |

Notes: 1. No purposely added lead. Fully EU Directive 2002/95/EC (RoHS) \& 2011/65/EU (RoHS 2) compliant.
2. See http://www.diodes.com/quality/lead_free.html for more information about Diodes Incorporated's definitions of Halogen- and Antimony-free, "Green" and Lead-free.
3. Halogen- and Antimony-free "Green" products are defined as those which contain $<900 \mathrm{ppm}$ bromine, $<900 \mathrm{ppm}$ chlorine ( $<1500 \mathrm{ppm}$ total $\mathrm{Br}+\mathrm{Cl}$ ) and <1000ppm antimony compounds.
4. For packaging details, go to our website at http://www.diodes.com/products/packages.html.

## Marking Information

P35 = Product Type Marking Code
$\mathrm{YM}=$ Date Code Marking
Y or $\bar{Y}=$ Year (ex: $D=2016$ )
M = Month (ex: 9 = September)
Date Code Key

| Year | 2015 | 2016 | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 |

Notes: 5. Device mounted on FR-4 substrate PC board, 20 copper, with minimum recommended pad layout.
6. Device mounted on FR-4 substrate PC board, 2 oz copper, with 1inch square copper plate.
7. Short duration pulse test used to minimize self-heating effect.
8. Guaranteed by design. Not subject to product testing.

Diodes Incorporated and its subsidiaries reserve the right to make modifications, enhancements, improvements, corrections or other changes without further notice to this document and any product described herein. Diodes Incorporated does not assume any liability arising out of the application or use of this document or any product described herein; neither does Diodes Incorporated convey any license under its patent or trademark rights, nor the rights of others. Any Customer or user of this document or products described herein in such applications shall assume all risks of such use and will agree to hold Diodes Incorporated and all the companies whose products are represented on Diodes Incorporated website, harmless against all damages.

Diodes Incorporated does not warrant or accept any liability whatsoever in respect of any products purchased through unauthorized sales channel. Should Customers purchase or use Diodes Incorporated products for any unintended or unauthorized application, Customers shall indemnify and hold Diodes Incorporated and its representatives harmless against all claims, damages, expenses, and attorney fees arising out of, directly or indirectly, any claim of personal injury or death associated with such unintended or unauthorized application.

Products described herein may be covered by one or more United States, international or foreign patents pending. Product names and markings noted herein may also be covered by one or more United States, international or foreign trademarks.

## LIFE SUPPORT

Diodes Incorporated products are specifically not authorized for use as critical components in life support devices or systems without the express written approval of the Chief Executive Officer of Diodes Incorporated. As used herein:
A. Life support devices or systems are devices or systems which

1. are intended to implant into the body, or
2. support or sustain life and whose failure to perform when properly used in accordance with instructions for use provided in the labeling can be reasonably expected to result in significant injury to the user.
B. A critical component is any component in a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or to affect its safety or effectiveness.

Customers represent that they have all necessary expertise in the safety and regulatory ramifications of their life support devices or systems, and acknowledge and agree that they are solely responsible for all legal, regulatory and safety-related requirements concerning their products and any use of Diodes Incorporated products in such safety-critical, life support devices or systems, notwithstanding any devices- or systems-related information or support that may be provided by Diodes Incorporated. Further, Customers must fully indemnify Diodes Incorporated and its representatives against any damages arising out of the use of Diodes Incorporated products in such safety-critical, life support devices or systems.
